## PROFILE

I design illustration systems that support clarity at scale — building structured frameworks, aligning multi-contributor output, and translating complex educational ideas into accessible visual language.

My work focuses on large-scale curriculum illustration production, style guide development, and improving creative workflows across teams.

## SKILLS

### DESIGN & LEADERSHIP

Illustration Systems

Art Direction

Visual Consistency

Cross-Functional Collaboration

Creative Production

### AI & WORKFLOW

AI-Assisted Illustration Workflow

Prompt Development for Image Generation

Creative Workflow Prototyping

## TOOLS

Photoshop

Illustrator

After Effects

Figma

Sketch

AI Studio

Claude Code

Midjourney / DALL-E

NanoBanana

GitHub

## EXPERIENCE

### Senior Graphic Designer

2023 — Present

Visual Systems · AI-Assisted Creative Workflows · Curriculum Visual Production

#### IMAGINE LEARNING

- Contribute to curriculum visual development across **decodable books**, **Connected Text**, and other educational content initiatives, supporting clear and consistent visual communication for early learning materials.
- Developed **illustration style guides** and production standards defining character design, environments, color, lighting, and visual consistency rules for internal and external illustrators.
- Supported large-scale illustration production by providing visual feedback, art direction, and consistency checks across characters, scenes, and book-level storytelling.
- Created early storyboards and visual direction for curriculum illustration projects, helping establish pacing, composition, and production expectations.
- Designed and implemented **AI-assisted creative workflows** for curriculum visual production, including prompt systems, image-generation workflows, style-consistency methods, and structured visual references.
- Built **internal AI Studio app prototypes** to test how manuscripts, design rules, and visual references can generate early visuals, layouts, and production direction.
- Prototyped AI-assisted approaches for **motion/video exploration**, automated visual generation, and design-system-connected creative workflows.
- Collaborated with design and cross-functional partners to move AI workflow concepts from experimentation toward internal deployment and practical team use.

### Visual Designer

2021 — 2023

#### MILES

- Created marketing videos and digital assets used across product launches and promotional campaigns.
- Designed icons, infographics, and web graphics supporting product communication.
- Collaborated with marketing and engineering teams to maintain consistent visual communication across platforms.

### Digital Artist

2020 — 2021

#### LOCAL LANGUAGE INC.

- Produced **2D and 3D renderings** for commercial environments and public installations.
- Developed visual concepts and presentation artwork to communicate design ideas to clients and project teams.

### Graphic Designer

2018 — 2020

#### PACIFIC RIM INTERNATIONAL SCHOOL

- Illustrated classroom publications and learning materials for early education programs.
- Designed the school's annual yearbook and supported internal communication materials.
